

Stair Light Controller

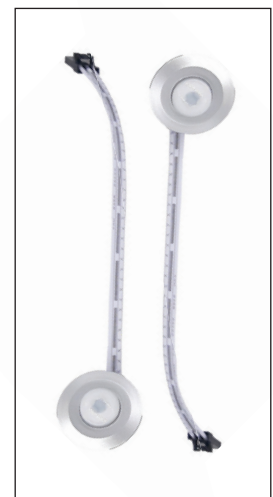

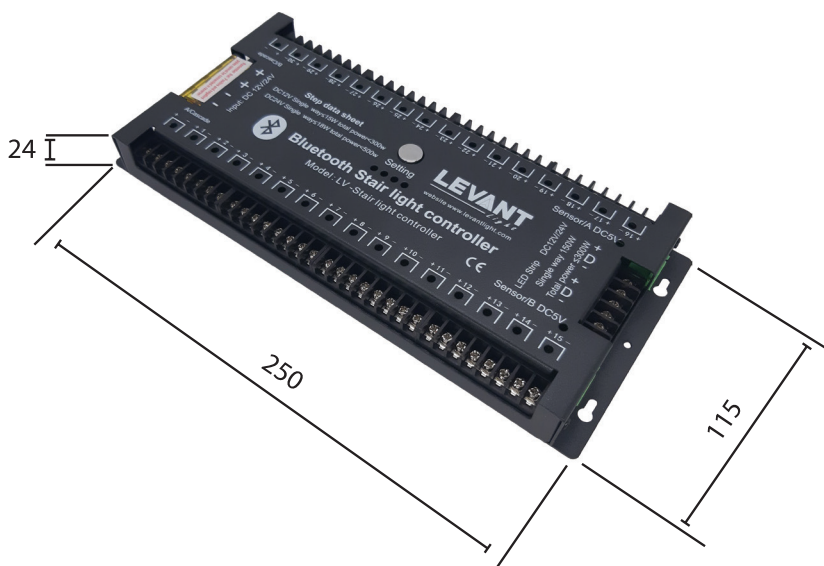

Two-in-one function, added chasing effect, mobile app control

■ Technical Specification

Power Voltage:	DC12V/24V
Controllable Power :	800W
Stair's Step Port:	30 Step
Light Chasing Port:	2
Sensing Distance:	Human body Sensing 2-3m
Total Sensor:	2
Dimensions:	250x115x24 mm
EAN:	6925222082006

■ Technical Drawing and Features

2 Laser Sensor

Stair's Step Function:

It can sense that people are going up or down and light up step by step

Light Tracing Function:

The strip light gradually lights up in a flowing way when people are detected, and the light tracing effect from the head of strip light to the tail of strip light

App Adjustment Six Functions

1. Adjustable Light Brightness.
2. Adjustable Stair's Step Number.
3. Adjustable Automatic Light Off Time.
4. Adjustable Light Chasing Length.
5. Adjustable Lighting Speed.
6. Adjustable Light Effect Mode.

Connection Method
